- Adding/or withdrawing capital

# StratBuilder trading (cont.)

- FAQ's
  - Allowing MT4 terminal “to make changes to your computer”?
  - Syncing with the VPS?
  - Closing trades in profit?
  - Manual trading on same screen?
  - Copying ‘templates’ & activating StratBuilder on more charts than intended?
- Using the StratBuilder utility to design your own ‘grid trading strategy’
- ‘Split portfolio’: i.e. trading more than one symbol concurrently (set files provided for more symbols, e.g. major currency pairs, Gold, Crude Oil)
